

Alessandro Lovo, male, 27

Ref 117029

Nationality: Italy
Currently based in: Lyon, France
Looking for: Caribbean; Mediterranean & Black Sea; Western Europe & North Atlantic Islands;
Experience: 0 ocean miles / 4000 coastal miles
Sailing has been my passion since I was a kid, though in a rather relaxed way :) I sail for almost a month roughly every summer, mainly around Sardinia and surrounding areas (south of France, Balearic Islands...), and I am now looking for my first open ocean experience. I recently finished my PhD in climate science, and now I want to come in close contact with the things I studied on books and simulations. I like to cook, play the guitar and play chess (I travel with a chessboard and I can teach some ;)). I am open minded and flexible, and fare well in groups
Smoking: Non-Smoker
Relationship status: single
Dietary requirements: I prefer to opt for vegetarian or pescatarian options, but I am not strict

Alessandro's Sailing Experience

Number of years sailing: 10+
Sea miles sailed: Ocean: 0 / Coastal: 4000
Nights at sea: 1-10

I have
experience as: ^{Crew}

Sailing Skills	Experienced I have done this many times and am confident to help others less experienced. I am happy doing this day	Competent I am competent doing this in daylight, or if there is someone more experienced with me	Basic I have only done this a few times, but I am willing to learn	None I have not done this before
